January, 1947

Dear Christian Friends:

Greetings in the name of Jesus as we enter into this important year. It is with a feeling of great anticipation that we begin this New Year. We know that the forces of good and evil, of Christ and Satan, will do tremendous battle in the coming days.

We can only begin to comprehend the burning issues at stake in the world today, by understanding the Bible-taught and experience-confirmed fact of the worldwide struggle of good and evil. The complications in our comprehension enter in when Satan is able to use a child of God temporarily by tricking or tempting him. We realize only too well that 1947 calls for even greater efforts in prayer (which changeth things) and in greater sanctification with the help of God's Holy Spirit. May God grant us the strength and means necessary to carry on the fight against those who would deprive our country of even a part of its sovereignty, plunge us into a world state, or as they popularly call it: "one world," and thus play right into the hands of the evil men who want control of the nations of the earth and who are carefully working towards the day when all authority on earth is centralized in one super state, making it less difficult for them to capture control. We may be certain that these evil men are NOT Christians, nor do they adhere to CHRISTIAN ETHICS! Instead they are materialists, radicals, and anti-religious fanatics. Their evil deeds are so fantastic that the reader could not believe them without difficulty. It is this insipid crew of internationalists who fight hardest for the super, one-world state which will destroy personal freedom and Christianity and make slaves of the rest of mankind. No one would welcome one world of peace, without war, more than sound thinking Christian people. However, let it be noted that those who are attempting to build this "one world" with its false promises are:

- 1) People, many of whom, are hard drinkers of intoxicants thus depriving them of "clear heads" to plan peace.
- 2) People who are bloody butchers of the innocent.

There is not one iota of evidence that the one world being planned for us is being based on even the rudimentary standards of moral ethics. God keep us PATRIOTIC Americans who love freedom and are willing to fight for it! There can be no true and honest "inter-nationalism" if there is no sincere "nationalism." Certainly we can cooperate with other nations. Loving America first is a virtue, and NOT selfishness, the way the radicals enemies of our country attempt to describe it. The very idea of "first" indicates that there are second, third, fourth, etc. loves also. It is not "America only."

On a recent trip to the south, I had occasion to talk with a very personable lady whose husband (now deceased) was a business partner of ex-President Franklin D. Roosevelt. Her husband naturally knew F.D.R. well. I was told that "The March of Dimes" for the Warm Springs Foundation was begun by these business partners as a means of entering the offices of wealthy men to interest them in supporting the polio fight and at the same time to do some business with them. The fund for fighting polio evidently grew in this manner and it soon became quite apparent to some soulless rascals that the polio cause could be used as a means of securing funds from the sympathetic public and even dimes from school children. When this widow's husband saw what a monstrous racket had been developed out of a small idea, he immediately disassociated himself with the group and to the day of his death opposed what to him was an obvious racket. Visitors to Warm Springs cannot see where the millions have been spent. Testimonies made to me by handicapped youth in Detroit (my wife is one of these) indicate quite strongly that the poor were NOT wanted by the Warm Springs outfit. We are placing this entire matter into the hands of the Humanitarian Research Foundation, Inc., and will report to you whatever is learned from time to time. In the meanwhile, from information we have from various sources, we would not contribute a penny to public containers marked for the "March of Dimes" or "Sister Kenny." Sister Kenny is doing by far the superior work and if you wish to contribute to her work, send it directly to Sister Elizabeth Kenny, c/o The Sister Kenney Institute, Minneapolis, Minnesota, and mark the envelope "personal." There is almost sufficient reason to accuse these evil people who are trying to wreck Christian civilization, with playing upon the natural sympathies of the American public, to fill their own pockets and finance their own revolution.

Without doubt, one of the vilest deeds perpetrated upon humanity is the persecution of the Koch Treatment by those in certain circles of the medical profession and in the "invisible government." Yet most of you reading this letter will not even have the faintest notion of what the Koch Treatment and the Koch persecution that is going on today really is. As time goes on in 1947, you will hear more and more about this wonderful

The fund to defeat Senator Theodore Bilbo of Mississippi was given its impetus by a contribution of \$15,000 from a Simon Liberman, born in Kiev, Russia. He is the author of a book entitled: "Building Lenin's Russia." He was a former leader of the Russian Social Democratic Party and stayed to advise Lenin himself after the bloody Bolshevik Revolution of 1917. He was only in the United States since 1938! He died about one year ago. This information, not generally found in newspaper reports, indicates the nucleus of the resistance to Bilbo. We are not in agreement with much of Mr. Bilbo's voting record or philosophies. However, from the evidence, it is our opinion that the opposition to him lies deeper than purely on negro-white lines.

The 2,000,000 young history students in eastern Germany are being taught history purely and only from the Marxist viewpoint. Marx and Engels are glorified as "the spiritual leaders of the German working class, as of the working class of the whole world."

Stalin's top agent in America, (formerly), Gerhard Eisler, alias Hans Berger, is being groomed by the Communist Party to tour the country to spread Communist Internationalist propaganda before he is deported to his native Germany.

Although more than fifty nations belong to the United Nations Organization, the United States was assessed by the U.S. to pay HALF the Budget by itself. We settled by paying "only" 37½% of the total budget ourselves. Actually, we are paying through the nose for our own destruction.

A mystery broadcast called "The Hermit's Cave," emanates over WJR in Detroit each Sunday evening. The sponsors, The Carter Coal Company, give a splendid example week after week how advertisers can help promote sincere Americanism and fight totalitarianism. Their advertising writer is to be complimented!

"SCIENCE AND RELIGION" is the name of the latest booklet we just picked up at the Communist News Stand in Detroit. It has just been translated from the French of Marcel Cachin. The booklet contains the usual patter that religion is fakery while communism is truly "scientific." Some quotations for your files, lectures, or sermons, are:

"Between religion and science one must choose. Their conflict is in evidence throughout the history of human thought." (p. 4)

"Communism is linked up with the entire scientific development of humanity. It (Communism) is the peak of human development." (P. 16)

"Man has endowed God with his own attributes. He has created a God in his own image."

"These leaders of men are: Marx, Engels, Lenin, Stalin...Already the appeal of these innovators has been listened to by millions. Their realistic words have echoed in the farthest corners of the earth. The oppressed and disinherited have rallied around them in increasing numbers; so have all modern men of good will and clear intelligence. Each day facts confirm the correctness of their teachings." (P. 32)

"Communism is not only essential for the progress of human civilization. It is also a demand of reason enlightened by modern science." (P. 32)

Frank Sinatra is a mediocre jazz crooner. He was picked up by a certain group and promised fame providing he agreed to do a certain job for them when he became rich and famous. For the last year or two Sinatra has been fulfilling his side of the bargain. He has been addressing and singing for communist rallies. He is preaching "tolerance" to grade school children as if every kid throws bricks at the little Jewish boys in the community. (Now a situation which little existed except perhaps in New York city where every third person is a Jew, has been implanted in the consciousness of the bobby soxers.) Naturally Sinatra never practiced "tolerance." He felt no inconsistency when he denounced and opposed those who spoke up for America FIRST and who are unwilling to follow the road of internationalism. Sinatra received special awards from the Communist Youth Group, the American Youth for Democracy (AYD) He also received a Roman Catholic Youth award from Bishop Sheil of Chicago. This seemed strange to us until we learned of Sheil's radical record. He seems to be part of the program to help undermine Catholicism with radicalism. Finally, the November, 1946 issue of "Novena Notes" a Catholic weekly put out by the Servite Fathers, gave "Catholic" Sinatra the lambasting he deserves. They accused him of "cashing in on his catholicity." They also declared that his publicized antics "make thinking Catholics cringe." - They also make other Christians at least wonder!

Morris Fishbein kicked out of AMA leadership. While we know that the Federal Council has elected to succeed the red Bishop Oxnham, a layman who is not only NOT a Christian (he is a Unitarian), but who is as radical as his predecessor, we have not discovered as yet whether the new head of the American Medical Association is an improvement (much needed) over Morris Fishbein, head for over 20 years. The new head of the AMA is 38 year old Charles H. Swarts, a Philadelphia public relations expert. The House of Delegates, Governing body of the AMA wanted it understood for the benefit of the public that the 20 year late change was merely a "reorganization" and not

GOOD NEWS- The Lutheran people in America are at last going to have a book published on the subject of communism. According to all records we were able to examine, no work such as this has been done in the Lutheran church bodies since C.F.W. Walther wrote one in German in the 1870's. The name of this new book will be: "A CHRISTIAN LOOKS AT COMMUNISM." It has been written by the Rev. Ralph Moellering, A.B., B.D. who is at present a graduate student at Concordia Theological Seminary and also a student at Washington University in St. Louis where he is doing work for his Master's Degree. Prof. Alfred M. Rehwinkel, head of the Graduate Department at Concordia, is writing a forward which will be a splendid addition to the work which Rev. Moellering has already finished. The Lutheran Research Society is making arrangements now to have the manuscript put into book form and copies of the book will be distributed from the LRS headquarters in Detroit. The book is a well prepared document and shows the keen study that has been made on the subject of Communism in its particular relation to the church. We hope that the cost of the book will be so little that it may easily be within the reach of everyone who is interested. It is neither the desire of the writers or the publishers to make money selling the book, however, it is our fervent prayer and honest desire that it may be a valuable source of information for pastors, teachers, and laypeople everywhere. With the help of a congressman well versed in the subject, the Lutheran Research Society will prepare a partial list of radical and communist groups now functioning in the United States as a guide to Christians, and this will be bound into Rev. Moellering's book at no extra cost. It may be several months before we can get the first copies off the press, however, D.V. we want you to anticipate that such a useful volume is coming out in the near future. - Frankly, it is going to take a few thousand dollars to publish this book in sufficient quantities to meet the anticipated demand. We do not have enough together to cover the full cost. If anyone should read this who is in a position to help finance this most worthy cause, we shall be deeply indebted if that person will contact us by mail. Whatever actual donations we can receive for the publication costs, will make the book so much less expensive and thus available to more Christian Americans. If there are some who cannot spare to give outright to the book fund, but can loan the fund money without interest, until the sales are completed, we would like to discuss this with you by mail.

It has been the prayer of a number of theological students, professors, pastors, and lay people that such a book for Lutherans especially be published. Now is your chance to help. Pray God that if He wills, our plans will go through and we may accomplish this task.

I need hardly remind you that our work is completely carried on by the free will offerings of those who are interested in preserving an American

Dear Christian Friends:

This is the month in which two great Americans of the past were born. George Washington and Abraham Lincoln are two towering figures in the history of this beloved nation. Recent issues of the radical, communist magazines have been doing their utmost to claim Abraham Lincoln as a communist sympathizer. They would like the public to believe that if Lincoln were alive today, he would do even more for the communist party than Roosevelt did during his life time. Lincoln often spoke warmly of the working class. He stated correctly that the working class should be of the utmost concern to the government because they represent such a large section of the population. The communists have the inflated notion that THEY ARE the working class and that the working class and the Communist Party are synonymous. Nothing could be more ridiculous! To them the working class is just those with the humblest stations in life. Foremen, presidents, officers, and countless other people who work for a living also are the "slave-drivers" the "capitalists" who hold down what they term is the working class.

The writer just returned from a trip to several cities on the eastern coast and would like to let the reader in on a number of things which were learned as a result of these visits.

Standing on top of the world's largest building, the Empire State Building of New York City, many varied thoughts come to the mind of those concerned over world issues. There is a cocktail bar even that close to heaven, but for those with more serious intentions, there is plenty of space in which to think. 102 stores above the earth affords an excellent view of Manhattan Island on which the greater part of New York's population seems to be jammed. The only green things visible are a few trees planted on roof tops. You can almost imagine a little how God must feel looking down upon the teeming millions below. The Statue of Liberty stands majestically in the distance. It is not difficult to imagine what would happen if an atomic bomb were dropped in the midst of so many people. The view is one filled with

findings, we discussed various items dealing with public issues and also with theology. I would think it profitable to some readers to let them know our personal reactions to this group based on information obtained from reading their magazines, studying the public actions of those connected with the project and also from speaking to the leader personally.

- 1) Lehman and Rev. Kelley, who lead the work conducted from offices in the Union Methodist Church in New York City (which is now going defunct and the property being sold to Alcoholics Anonymous), are definitely fundamentalists as far as religion is concerned. This is according to their own testimony. I have never heard a Communist give expression of religious faith as Lehman did to me. A communist is incapable of it.
- 2) Lehman answered my question as to why his magazine promoted the notoriously left-wing, pro-red book, UNDER COVER, by saying that "John Roy Carlson" (real name: Avedis Boghos Derounian) had tricked him into believing the book was something other than what it turned out to be. He said his magazine later repudiated the book and that Carlson consequently placed him in his new smear book, THE PLOTTERS.
- 3) In answer to our request for his opinion on Birkhead and the so-called, Friends of Democracy, Lehman stated that in his opinion Birkhead is the same type as Carlson that they work both sides of the street, depending on where the most money is paid to them. It is a fact that in the entire history of these two individuals, there is nothing to substantiate the idea that they have any set ethics, principles, or morals. They do the very things they condemn. For example, previously this communist loving group was all out to smear anyone who opposed communism. Now Carlson has been engaged to make a study of communism in the labor unions for some magazine. This is the most ridiculous thing that we have ever heard. It is almost as ridiculous as having the New Dealers investigate Pearl Harbor. At one time it was stated that Carlson was prepared to betray the backers of UNDER COVER, provided that the anti-communist group could offer him enough money to make it worthwhile.
- 4) In answer to my question of why he wrote for all the left-wing, professedly communist papers in the country, Lehman replied that he felt we should use every avenue at our disposal to bring our message to these people. The only thing that later investigation indicated, was that Lehman's articles in these communist publications are on political issues. Since he agrees with the reds on public issues, naturally they enjoy having a

- 5) Lehman joined a group of modernist and radical preachers to seek for the abolition of the House Committee on Un-American Activities. This we cannot understand. It is merely another case where he has joined hands with the radicals.
 - 6) Lehman told me he would prefer to live under an atheistic communist regime than under one where the Roman Catholics have the upper hand. Personally I would not. The Lutheran Church still holds in its official teachings that the Catholic Church is a Christian Church. Communism is atheistic. If Lehman thinks he would have less persecution under Communism, it shows that he is not very conversant with the plight of religion in communist dominated countries.
 - 7) The publishers of books on world affairs and against Catholicism which advertises in THE CONVERTED CATHOLIC and whose literature this magazine distributes, also advertises in the communist NEW MASSES, evidently hoping to reach a group of people which is in sympathy with the views held conjointly by both magazines.
 - 8) Asked about his association with Kenneth Leslie, red editor of the very red magazine, THE PROTESTANT, Lehman stated that he has disassociated himself with Leslie because Leslie has become too communistic.
 - 9) I asked Lehman whether his magazine had ever published an article just dealing with the menace of communism to religion without having to bring in any extraneous political matters tied in with the Catholic Church or anything else. He said they had not. I suggested that a series of such articles would at least start fundamentalist Christians wondering whether he possibly could be on the side of Christianity. I also imagine such a series directed against communism would soon remove any invitations he might receive in the future to write for their magazines.
- e do not know whether Lehman is part of the communist conspiracy to disrupt Christian forces opposing their plans of revolution. Even if he is not consciously aiding them by prearranged agreements, still he is giving the communist movement full succor and comfort in practically every move they make in this country. This is not good and should not come from a man who considers himself a child of God.

The Unitarian Church is definitely not a Christian church body. This group openly supports such clerical communists as Claude Williams and permits such known lying radicals as Birkhead within its fold. It is opposed to true Christian doctrine. It is the nearest thing to Judaism

4
St. Patrick's Cathedral is a gigantic church building. Sitting in its vast spaces one cannot help but admire the skill and beauty which has gone into this New York City structure. The chapel in back of the main altar is larger than many of our Lutheran churches. A great number of physically beautiful altars surround the worshippers. One cannot help but think how wonderful the Word of God is whether preached from a high pulpit as this, or whether from some trailer mission or a converted store. A bedside in St. Phillip's colored hospital in St. Louis where I liked to go to bring Christ's message while at the Seminary in St. Louis, is in many respects, a greater thrill even than worshipping in a church of magnificent proportions.

The Friends of Democracy is the name of a pro-communist, anti-Christian front organization. Dr. L. E. Birkhead is the national director and the former detective story writer, Rex Stout, is the head, nominally speaking. I paid a visit to this office in New York hoping to have a pointed discussion with L. E. Birkhead, however, I learned on the way that this old character assassin was out of town. The Friends of Democracy has an office of several rooms, employing more than a half dozen clerks and numerous other officials. When I later looked into the offices of the House Committee Investigating Un-American Activities in Washington, I was shocked to discover that Birkhead has more people employed in the dastardly work of attempting to corrupt our type of government and its foundations than this important government committee has to protect our American system from the contamination of these individuals.

The chief investigator of the Un-American Activities Committee, Mr. Robert Stripling, pointed out to me the lack of adequate facilities the Committee had in attempting to do its job successfully. All during the Roosevelt Administration, every attempt was made to stop the work of this committee. F.D.R. didn't want an investigation of communist activities in this country. The committee was pushed up into the attic of the old House Office Building. It has now been given space which is more appropriate and more efficacious than it ever has had before. Repairs and decorations are being made to give it more office space very fittingly every Christian American ought to drop a letter to the committee active and ask him to support without stint the House Committee Investigating Un-American activities. The Committee needs more clerical help, more of its vast files and many more investigators to do the work required around the country. Urge your congressman to help in the scope of this committee. We should also write our Senators and urge the Senate Committee Investigating the subversive elements. There is a feeling on Capitol Hill now that a Senate committee should be formed. A letter from you might be the thing that determines if such action will be taken.

is someone who cannot be bought or induced to withhold some information on subversive elements which may be embarrassing to supporters. We can be sure, I believe, that Rankin is heart and soul interested in this work and that he is a strong column within the framework of the committee. Remember, dear Reader, that many more thousands of dollars are being raised by the enemies of America to destroy this investigating committee than congress gives the committee to perform its duties. The committee is not errorless. It attempts to speak in terms of documents and facts. If some movie star or other person has taken out money in many, many communist front groups, the committee may reveal this without judging whether such a person is a communist. The committee must be doing an enormous amount of uncovering or else the radicals would never oppose it the way they do. I know some innocent people who were brought before the committee and investigated. These people are not only willing to cooperate, but are supporting the committee publicly as much as possible.

Congressman George Dondero assured us that he has supported and intends to continue to support the Committee investigating Un-American Activities. He feels that congress will grant the necessary means for the committee to carry on in a wider scope, and letters from the people will help very much in this respect. We urged every congressman and official with whom we came in contact to support the committee as much as possible.

The home of George Washington at Mount Vernon is a sight which no visit to the capitol should miss. It is an inspiring feeling to be able to see the places that were near and dear to that great American. The estate is breathtakingly beautiful, even in the zero weather that obtained while I was there. Many thoughts of America come into your mind as you gaze into the room in which he passed away. We thought of the oft-quoted vision of George Washington in which he seemed to have a preview of the domination of the red flag over the world and its attempt to encompass our own Republic. In the museum on the first floor is an old wood cut made at the time of his death. It shows Martha Washington along with Drs. Brown and Craik at General Washington's bedside. Dr. Craik is holding a watch in one hand while feeling the pulse of the dying man in the other. Next to the wood-cut is the sword which Dr. Craik used. Under the picture, written at that time, is the verse:

"American, behold and shed a grateful tear
For a man who has gained you freedom most dear
And now is departing into the realms above
There he may ever rest in peace and love."

"This was wrote by Martha Custis for her Grandmama,"

(Note: The spellings, etc. are exactly as they were written at that time.

General Washington was scrupulous about keeping financial records and marked each of his books on the title page with his autograph: "G. Washington." One of the books bearing this signature has the peculiar title: "Loose Hints Upon Education Chiefly Concerning the Culture of the Heart."

Over his coffin are inscribed the marvelous promises of Christ as recorded in John 11, 25-26; "I am the resurrection, and the life: he that believeth in me, though he were dead, yet shall he live: And whosoever liveth and believeth in me shall never die."

The family Bible shows much use and the house has a number of religious prints displayed. George Washington seemed to be a man in the world but not of the world. He was kindly, but firm. Mount Vernon is only about fifteen miles from the Capitol. It would be of great benefit to our country if every congressman and every public official would take a trip to this place and plan to spend an afternoon there. He should not go on a "tour" with a large group, but alone, if possible, so that he may read, see, and observe and ponder some of the tremendous lessons to be found there in his heart. Such a trip if done in humility and sincerity cannot help being of lasting influence on a man who bears heavy legislative responsibilities. It humbles you to be in the surroundings held dear by a great man and a great American, who was in turn humbled before the majesty of our dear Lord and Savior--the only Redeemer from Ruin this country or any country will ever have!

In contrast to the above thoughts and observations, as I was passing by Hyde Park along the Hudson River, I couldn't help wondering again whether F.D.R. really is in his grave and if so, under what circumstances he was buried. The fact that his family maintained strict rules to keep the coffin closed, will always make the nation wonder. I couldn't help feeling that I was in the vicinity of the biggest mystery in our country--and--if he is buried there--that locked in his brain are secrets which would shake the world, namely, - why nations are enslaved today although he spoke of the "rights" of small nations--why people were starving to death when he claimed to fight for freedom from want--why Christians throughout the earth are being hounded, persecuted, tortured, and murdered when he promised freedom from fear and the right to worship God as we saw fit--why thousands upon thousands of gold stars in American homes when he promised again and again that our mothers'

Roosevelt and his wife did more to enhance and glorify the Communist Party in the United States than any other public official in our history. It was with this recollection that I sat in all day at the hearings of the Congressional Committee Investigating Un-American activities on February 6 and heard the following:

Gerhard Eisler gave the most despicable performance of any radical that I have ever seen or heard of in my entire life. The hearing room was filled to capacity. Gerhard Eisler, alias Hans Berger, alias Gerhard, alias Brown, alias Edwards, puffed nervously at the remains of a stubby cigarette. When Chairman Thomas asked Eisler to take the stand, he began to yell out in a foreign accent that he wished to make a statement first. The Chairman politely explained that all witnesses were able to make statements, but that they must be sworn in first. Eisler did not want to be sworn until he made the statement, in which case he would not have been held accountable for what he said since he would not have been under oath. When they finally got him to the chair, he still refused to be sworn. After several attempts to swear him in had failed, the Chairman asked that he be removed from the hearing room. Eisler, like most of those of his kind, continued to talk out loud for everyone to hear while the Chairman was attempting to speak. This foreign, evil man, who has been the "guest" of our U.S. hospitality for several years conducted himself in the most contemptuous manner. Most of you have read the account of the hearings in the press, but here I merely want to emphasize that the plot to seize control of our country is most serious and imminent. I do not believe the plan of revolution will be successful, however, I do know that if just an attempt at revolution is made, millions of people will be involved, and entire cities will be held by terrorists with thousands of our legal leaders, clergymen and opponents of communism liquidated by real assassins. This happened in Spain and lasted six months. The terror that reigned there can hardly be understood. It is going on in China at present. It has occurred wherever the revolutionists have attempted to seize control. We are not too intelligent to have that happen here. Estonia, a predominantly Lutheran country has been completely subdued and is now a "republic" in the U.S.S.R. No, friends, the reds must not even be given a chance to attempt a bloody revolution or any other kind. Daily remember your country and your freedoms in your intercessions before the Throne of all Grace!

Howard Fast, author of a number of books now popularly sold and who has been complimented by such people as Eleanor Roosevelt, is one of the leaders of the Joint Anti-Fascist Refugee Committee. This is the group which such people as Rita Hayworth and others have supported and which helped put the murderous Tito on the throne in Yugoslavia. Prof. Shapley of Columbia University who raised such a fuss when Rankin pointed him out as a red professor, is also on the board of this committee. Now it comes out that Gerhard Eisler was receiving his income through regular

and automobile factories. The Amtorg Trading Corporation, which is located in New York and represents Russian interests has prepared a manual for Russian distribution. Military and naval intelligence officers have labeled this work "a manual for bombing America." AMERICA WAKE UP BEFORE IT IS TOO LATE.

~~Kate Smith~~ is definitely a radical. This singer is going to have a daily series of news comment over the Mutual network beginning in June. It is being aimed primarily at the housewives of the nation. ~~Kate Smith~~ has been found uttering radical opinions over the air waves on many occasions and telling people in foreign countries that she is speaking for the entire country. Some information we received indicates that a number of good, old-fashioned American mothers wrote her sponsors to the effect that Kate Smith does not speak for them and she had better stop pretending that she does. A short time later, Smith was required to say over the air that she does not speak for the entire country. Letters of protest written in to SPONSORS, may help curb the rising tide of radicalism and materialism in America.

The Jewish Dr. Ludwig Lewisohn spoke in Detroit on Judaism. He made some startling statements which may be indicative of why so many people of the Jewish race follow un-American activities. He said among other things: "Jews must set up their own schools and teach only academic subjects. Assimilation of AMERICAN CULTURE is destroying the Jewish way of life. America has the lowest form of intellectual life on earth." It is a shame that these materialistic elements among the Jewish people are the ones that speak the loudest for the Jews. The unfortunate part of it all is that the little Jewish rag collector and the sincere Old Testament Jew is usually the butt of any persecutions the Jews suffer, although they are not responsible for what their atheistic leaders say. Unless the Jews have an awakening in America and cease their support of the subversive elements, they may bring about persecutions which the sincerely Christian elements may not be able to prevent. It is because of the Christian foundation of our country and its freedoms that the Jew has the liberty here which he has in no other part of the world. He should cherish, love, and revere this privilege along with others.

~~Herbert S. Marx~~, attorney for the Atomic Energy Commission, is listed in the Congressional Committee files as having been a Communist during the investigations conducted by Congress in 1940.

~~David E. Lillienthal~~ is seeking the Chairmanship of the Atomic Energy Commission. Regardless of what you read, Mr. Lillienthal has some very un-American connections and definitely should not be at the head of such an important commission. He is a former Harvard protege of the notoriously red Felix Frankfurter. Mr. Lillienthal has had communists work under him and has been associated with them.

is ~~Paul~~ ~~Blanshard~~ who in 1943 entered the Foreign Service Branch of our State Department. He was considered the "voice" of the LID and lectured extensively for it. In one of his speeches, during a strike at Utica, New York, he said:

"I am sometimes ashamed that I am an American. Yes, I am Red and pretty Red...the things that happened in Russia are bound to happen in America...the working class must have more power. They can't get that power unless they take it from somebody else. We must honestly try to abolish the superstition of patriotism. I am an ~~American only by accident of birth.~~"

In his book, "Socialist Planning and a Socialist Program," Blanshard, the voice of LID, wrote:

"Socialists propose to supplant the competitive planning of capitalism with a highly centralized planned economy. Our aim is frankly international and not narrowly patriotic. Daughters of the American Revolution please notice.

"If we gained control of the American government, we would probably begin with a complete revision of the national governmental system. We would do one of two things. We would write an amendment to the Constitution giving the federal government the right to regulate all private business and to enter into any business which it seemed proper, or we would abolish the Constitution altogether..."

On April 15, 1932, Blanshard, the voice of LID, told the Academy of Arts and Sciences, in Philadelphia:

"Having once captured the Government and shelved the Supreme Court, we Socialists would nationalize as many large industries as we could chew. We would do it peacefully, if possible, and would do it otherwise if necessary."

We could write page after page on these associations of David Lilienthal. The man who heads the Atomic Energy Commission must be someone who has lead a life blameless as far as Socialism, Communism, Fascism, and Nazism, etc. are concerned. Lilienthal's life is not blameless. Senator McKellar of Tennessee is practically the one man opposition to Lilienthal. Without doubt Lilienthal has the support of the Invisible Government. If you are concerned about your country, write your Senator and Representative at once and tell them that Lilienthal must be opposed for such a tremendously important post. Tell them the man for the job must be free of even the pink shade of Red Fascism.

"The Daily Worker," official Communist Party organ, stated on February 1, 1947: "A little noted event took place in the country last week. It took place in the parlors of miners, in small club rooms in little towns, and in meeting halls of larger cities. We refer to the..."

cooperating with the Committee on Un-American Activities in Congress and with Governor Kim Sigler in Michigan to expose Communist activities in Michigan. We need your help. It takes much time to research and write and to collect, assemble, and file the many pieces of information necessary to keep our office as well informed as possible. We constantly have to go after new things and gather material. If you folks let us down, the fight will die out. The letters from pastors and lay people indicate they want this information. They want a Lutheran group which is interested and concerned in this fight for the self-preservation of our freedom to preach Christ's Gospel and live as we see fit. Business men are interested in knowing what is happening since they stand to lose all in a revolution which is either bloody or which is legislated as has been the case the last twelve or thirteen years. Show our literature to your friends and relatives and pastors. A mere request will bring informational literature to them. We send the material to anyone who is sincerely interested. This is made possible by the contributions of people who send in donations in excess of their subscriptions to the magazine, etc. We are not subsidized by any synod, but carry on our activities purely on a voluntary basis. Only those who have ever attempted to carry out a project on such a basis can realize what a trying, tremendous job it can be. Wherever we go in our line of various activity, we are constantly gathering information, books, clippings, etc. etc., which can be placed at the disposal of those who feel the need of such important work in these days. Pray for us that God may give the staff, the Board, and myself the necessary strength to carry on. Help us this month, if you can. We would like to be able to send out premiums to everyone, but the cost is too high to permit this. However, we do want you to have this additional literature. Anyone who contributes in answer to this appeal using the handy, enclosed coupon, will receive a copy of Kenneth Goff's new book, TRAITORS IN THE PULPIT, which contains a documented account of the Feds in this country who wear the robes of Christ while they attempt to destroy our freedoms and destroy Christ's Deity. Every one of you should have this book. One of the chapters in this book has been written by the Director of the Lutheran Research Society. Send in your contribution without delay and receive this new book just off the press. May God bless you who pray for and help us.

Sincerely yours,

Dear Christian Friends:

The Committee on Un-American Activities in the House of Representatives in Washington is in a particularly good position to know what is happening to our country. Recently members of this committee as well as investigators for the committee, told a friend that the more they study the subversive activities in America, the more they are convinced that it is already too late to save America from the fate of Europe. Some of these individuals believe the heart has been eaten out of our country due to the activity of communists, atheists, materialists, etc. Words like these make us realize that we must spend more time on our knees, praying for America. We must witness all the more strongly to the foundation of Christ. His atoning blood. Without these, America is absolutely lost! May God preserve us!

A hard pill for many awakened Christians in the Lutheran Church to swallow was the praise which our own WALTHER LEAGUE MESSENGER, the official organ of the largest Protestant young peoples organization in the nation, lavished on John Roy Carlson's lying books, UNDER COVER and THE PLOTTERS in a recent issue. This is certainly a sign of the last times. We gave the true facts to the editors of the MESSENGER and asked them to notify us if they would agree to print the truth so that the young people reading the magazine would not be misled. We knew that certainly the editors would print the truth if they but had it. We did not believe they were acting out of any other reason but that they were misled by the enemies of the church and country. Still, to this date, we have not had the courtesy of a reply from that editorial office. Consequently, it became necessary for us to print the facts regarding Carlson and send them to every Synodical Conference pastor and teacher in America.

The April 15 issue of the Friends of Democracy bulletin carries the admission that John Roy Carlson is the CHIEF INVESTIGATOR for that organization. All of our friends know very well that it is the Friends of Democracy which has been working ever since its formation to attack

In reading the past issues of the MESSENGER we have considerable space is given to propaganda in behalf of Jewry. Personally, it is a shame to use good space in a Christian magazine in praising those who are so able to praise themselves and control the means whereby they can do this. The Jews are not a persecuted people in America. As a minority group they do very well for themselves. Lutherans know that a drive is now on to raise funds to make up the deficit which The Lutheran Hour has had this past year because of the restrictions placed upon religious broadcasts which preach the blood of Christ. In the entire state of Michigan, the committee asks for only \$10,000 as this state's share to make this budget. Yet the so-called persecuted minority group is raising \$170,000,000.00 throughout the United States to carry on its activity, requesting not ten thousand, but \$5,000,000 as Detroit's share alone!

The Anti-Defamation League of the B'nai B'rith has asked for a budget of five million dollars alone. This would be enough to take care of The Lutheran Hour for four years without having to get a penny for support during that time. With these millions, this persecuted minority will influence every "man, woman and child every day of the year" according to their own solicitation letter sent out by the National Chairman for the 1945 appeal. At the same time, it claimed to have used past years' millions in the following ways EACH YEAR:

216 individual station broadcasts A DAY in 1945 and a goal of 65,000 for 1946; It listed 26 full page ads run in 397 newspapers; 2,000 insertions reaching 100,000,000 readers (space free); a series of 12 posters displayed on 1,000 billboards in 130 cities costing a quarter million dollars; 16,000 cards in 24 cities; space on payroll envelopes, blotters and millions of match covers. It claimed to influence 1,900 daily newspapers with 43,000,000 circulation, plus the rural press, the foreign language press, the negro press, and the labor press, with 10,000,000 additional readers. It recorded 330,000 books placed in libraries during the year; 9,000,000 pamphlets "tailored to fit the audiences," and 40,000,000 propaganda-laden books of comic strips to children and men in the armed forces. It "presented the most noted names on the lecture platform" to more than 30,000,000 people by subsidized lecture bureaus. It arranged for and aided special movie shorts and radio programs by stars in the amusement world.

THE JEWISH YEAR BOOK for 1945-46, page 700, says, in a chapter on Domestic Public Relations Activities in 1944: "Our message has been included in every variety of radio program from 'soap operas' to news and sports commentaries. The value of commercial rates of the radio time available to us WITHOUT COST in 1944 is estimated at close to four million dollars."

Any American who sees the above must come to the conclusion that the Jewish minority is well taken care of from the propaganda angle.

We wonder at the criticism which the MESSENGER echoes deploring the fact that Jews are not permitted to join certain civic groups in Minneapolis, for example. Certainly we have not so lost our freedoms in America that groups of people cannot get together and be exclusive if they wish to. A person must be of German descent, we understand, to join the Steuben Society. Still we never hear of the Irish raising a howl because they can't join. A person must be Jewish to join the Jewish War Veterans, still there is no howl that this organization discriminates against the poor Christians. A person must be a Roman Catholic to join the Knights of Columbus, still the Protestants do not howl because they are excluded. There are thousands of such groups, civic, religious, recreational and otherwise in America. Why the Jews refer to the Christian Veterans as anti-Semitic when they have their own Jewish War Veterans, cannot be easily understood. There is an American Jewish Committee. Everyone in America should respect its right to be Jewish. However, as soon as a Gentile Committee is organized, some of the agitators among the radical Jews immediately start a howl. There is a Jewish NEWS which has every right to be Jewish and for Jews. However, when a Gentile NEWS is formed, immediately all the Jewish propagandists tack the term "anti-Semitic" on it. This is not right. It is not "brotherhood, tolerance, or unity," but it is unjust. Some Jewish people must have an inferiority complex. They are trying to pass Federal and state laws prohibiting anyone to criticize them. They have a law like that in Russian-dominated Poland. Anyone who criticizes a Jew there is subject to the death penalty. WE DO NOT WANT THIS IN AMERICA! If the Jews can get such legislation passed in America, then we want legislation passed that you cannot criticize the Lutherans, the Germans, and the Irish! Imagine what a ridiculous nation this would be if everyone was so selfish that he wanted such laws passed for his own personal egotism.

Certainly, we must bear in mind that Minneapolis is the center of the Trotskyite branch of Marxism in America. This group is dedicated to stirring up racial strife where none need exist, if everyone went about his business without feeling that everyone else is discriminating against him. We believe the WALTHER LEAGUE MESSENGER is wrong in quoting a known communist front man, Carey McWilliams, to show that Minneapolis is anti-Semitic because of the Lutherans. Minneapolis may be anti-Semitic because of the Jews there. It is well known that leaders in some branches of Minnesota's politics are most radical and left-wing, e.g., former Governor Benson. Probably the decent people in this state are attempting to omit the possibility of such individuals getting into their organizations and making radical groups of them. This has happened in other parts of the country.

If we wanted to be more critical of the WLM, we could make an issue that the MESSENGER is evidently discriminating against poor Lutherans in favor

According to word our office has received, two conferences, The English District Pastoral Conference of Greater Detroit, and the Southwest Regional Conference of the Southern Nebraska District have taken action to find out what is going on in the editorial offices of THE WALTHER LEAGUE MESSENGER. Other conferences are also to look into the matter. We wanted the MESSENGER to correct its mistake. They did not reply. ~~Should the radicals actually have an influence over some people at 875 N. Dearborn in Chicago, these little items will just be the beginning. In the future, if these incidents are by-passed now, we can expect more of such doings, especially after the instigators of such false propaganda think the "heat" is off. Watch it, Lutherans!~~

~~Dr. Birkhead, of the Friends of Democracy, Carlson's boss, is in hot water in New York for telling one of his pet lies about someone who has the money to fight back. There is going to be a Grand Jury investigation of this outfit. It will be interesting to see, if the truth is published, who the backers of this smear group, really are. We shall keep you informed on this. More in the next ELEVENTH HOUR.~~

~~May 1 is the Communist celebration day all over the world. It is also the day on which Adam Weishaupt organized the Order of the Illuminati in 1776. The Illuminati was the forerunner of modern Marxism. In New York city on this last May Day, 150 people were kneeling in prayer in the Roman Catholic Church of Notre Dame. The priest was at the altar in kneeling posture. Before anyone realized what had happened, a young Columbia University student, Henry Perfield, 26, wearing a May Day button in his lapel, carrying a Communist DAILY WORKER in his pockets, and dangling a cigarette from his lips, strolled down the aisle of the church, leaped the altar rail and knelt beside the priest at the altar, mocking him and pointing to his May Day button. Parishoners called the police. This is the attitude--well expressed--of the communist toward religion, particularly Christianity. We in the Lutheran Church probably never need fear such an action because our stand against atheistic communism is pretty weak. Until an incident like this happens in a Lutheran Church, we haven't begun to oppose Satan in the militant way that Luther did!~~

~~READER'S SCOPE is a magazine the size of READER'S DIGEST. It was begun by the left-wing element to compete with the latter. It has now come out that Gerhard Eisler, the representative of the Communist International, was formerly a research man with READER'S SCOPE magazine! This again adds up to a warning! Watch READER'S SCOPE magazine. We have a photostatic copy of a government document in our files which proves this fact from Eisler's own confession.~~

Probably some readers saw the cartoon, SIDE GLANCES, which we clipped from the WASHINGTON DAILY NEWS on April 17, 1947. It shows a little boy being taken home from Sunday School by his mother. With a rather pained expression on his face, he says, "Oh, we sang a couple of hymns and they gave us the usual sales talk about heaven!" In every way and on every day, those who hate Christ do what they can to mock Him, blaspheme Him, and to ridicule Him and His work in the minds of the people!

Kenneth Goff and his good wife, Dorothy, accompanied us on our trip to Washington to take the petitions to outlaw communism to the President. They were both formerly members of the Communist Party. They have dedicated their lives to seeing that the young people of this age do not fall for the line of propaganda the reds gave them. I am happy to say that they are truly children of God. They are born again and amid great sacrifice as far as earthly goods are concerned, rejoice in the Lord Jesus Christ. We spent nearly the entire night driving to the Capital singings songs of salvation. Mr. Goff has been doing a marvelous work in exposing the communist intrigue in America. Some newspaper clippings telling of his testimony before the Legislative Committee in Wisconsin are enclosed. Mr. Goff knows how zealously the reds work to gain the young people. He is without doubt the greatest single enemy the Communist youth has in America. When he left the party, his "comrades" attempted to murder him by pushing him under a train just starting up. He lost a leg. However, this has not stopped his courageous work. If any pastor or group reading this, cares to have Mr. Goff speak, please write to the Lutheran Research Society, and we shall attempt to arrange a mutually agreeable date anywhere in the country. Mr. Goff travels extensively.

MEDICAL MONOPOLY. We have mentioned in some of our previous letters the monopoly which the American Medical Association under the influence of Morris Fishbein, M.D., has over medicine in America. We believe it is more detrimental to the ultimate good of our nation than the influence which the reds have in some of the labor unions. Surely it is more cruel and ruthless. A doctor, writing from the Pacific coast, tells us how Fishbein's control over medicine is maintained. He says that the strange thing is that so many hospitals are sponsored by religious institutions, yet it is primarily through the hospitals that Fishbein controls the medical field. Not so long ago, he writes, the Board of Supervisors of Cook County, Illinois, decided they were not going to take orders from Fishbein in their management of the Cook County Hospital in Chicago, which is the largest hospital in the country. Fishbein with his dictatorial and tyrannical control, immediately switched the rating of the hospital from Class A to the bottom of the list, which automatically deprived its interns of credits which they must have in taking State Board Examinations. Since interns put their time in for

The response to our March letter was gratifying. We are plowing forward in our work. The director has been speaking from two to five times a week. We have added more names to our mailing list in the last eight weeks than we did in the last year. Our mail has been overpowering! We have tried to answer all letters as rapidly as possible. Many more will receive replies to your problems as soon as time permits. Please be patient a little longer.

We want to welcome our new readers who are receiving our materials for the first time. Some of these people know that we are engaging the services of a graduate of the Lutheran High School beginning June 16, to take over full time stenographic work in our office. The volunteer workers are doing yeoman service in the mailing department.

We are getting this fine, Christian young lady as stenographer and office assistant, and we know that the Lord will help provide the funds necessary to pay her salary. We are asking those of you who are able to do so, to pledge a dollar^a week toward the salary of the office assistant. At least thirty individuals are desperately needed. Some of the businessmen, who have the most to lose, should take this matter in hand, and help us to raise the funds necessary to keep this well-trained girl in our office. Please remit your checks for the coming year at once. We are in desperate need to know that this matter will be taken care of. ~~Make your checks out to the Lutheran Research Society and specify it for the office assistant fund.~~ Please, folks, we need the help so badly, otherwise our work cannot grow. It is already too large for our small group to keep it going. Try to send an amount for \$52.00, equal to a dollar a week for a year. If you cannot, please send an amount for a half year, third year, or a quarter year; whatever you do is deeply appreciated and properly credited to you. ACT AT ONCE. PROMPTNESS IS VERY URGENT IN THIS MATTER. May the Lord bless you who bear this burden in the cause.

The enclosed slip announcing the publication of Walther's lectures on COMMUNISM AND SOCIALISM, may be used by anyone who can contribute to our work this month. Remember that this letter covers a two month period. Anyone who contributes a dollar or more, or who subscribes

Kenneth Goff, Ex-Student, Former Red, Tells Solons of Experiences

Kenneth Goff, Delavan, former university student and ex-Communist, named Communists he said he became acquainted with here in 1935 as they allegedly sought to promote the movement among university students, at a hearing held by the senate committee on education and public welfare in the capitol Wednesday.

The hearing was on a bill by Sen. Bernhard Gettelman (R-Milwaukee) to bar "avowed Communists" from the university board of regents, the university faculty, and the university student body.

Goff urged adoption of the bill, declaring that he became "im-bued" with Communism when he attended a workers school at the university in 1935.

"When I attended that labor school under Phyllis Bartlett and Jack Lyons, I heard the 'Internationale' sung for the first time," Goff declared.

AMONG THE PERSONS he met while at the university in 1935 whom he said were Communists at that time were Prof. A. D. Spear, former university professor, now director of the Abraham Lincoln school, Chicago; Cedric Parker, Madison, now a reporter for The Capital Times; William Roth, then an instructor in the university extension division, and Gail Crane and Johnny Cookson.

Goff said that Roth "was working for the revolution" and Parker was in charge of Communist affairs in Madison.

He declared that Communists have sought to promote their movement among university students on the theory that "the nation will be within their grasp" if they win the oncoming generation.

States and make Wisconsin the 18th Communist state.

He said that the plan was to make Fred Bassel Blair, Milwaukee, state chairman of the Communist party, head of the 18th Communist state.

Goff's charges were made in one of several spirited speeches at the hearing, which was attended by about 40 persons.

DURING ONE verbal exchange between Goff and Blair, Sen. Robert P. Robinson (R-Beloit), committee chairman, rapped his gavel to quiet Goff.

Blair had said that Goff was a member of "an un-American organization," the American Action committee, causing Goff to shout "that's a lie." Goff had said earlier he represented the Christian Youth of America group.

Supporters of the bill, besides Goff, were Gettelman and Mrs. Clare M. Merton, Milwaukee, who said she spoke for the Golden Rule Mothers of America.

Merschon also produced an affidavit dated Mar. 4, 1947, and sworn to by Kenneth Goff, Denver, Col., former Communist youth activities leader here. In this affidavit Goff declared that Christoffel "lied" when he told the congressional committee in Washington that he did not know Sparks or Blair.

Before he left the party, Goff on many occasions met with Christoffel, Blair, Sparks and Eugene Dennis, now national secretary of the Communist party, the affidavit continued. Goff said that he and Christoffel attended classes at the Eugene V. Debs school together. These classes were taught by Dennis, Blair and Peggy Dennis, wife of Eugene. The affidavit added that Christoffel was a discussion leader in such classes on problems relating to labor.

The bill will be considered at 2 p. m. tomorrow by the Senate Committee on Education and Public Welfare.

Here is Goff's statement:

"I was a Communist—until the Communists went over to the Hitler camp with Stalin in 1939."

"I have been unjustly accused of favoring Fascism and sponsoring racial and religious bigotry."

"When I appeared before the Gettelman committee of the legislature to expose Communism in Wisconsin labor ranks and in the University of Wisconsin in 1941, I was made the target of a smear campaign by the Communists."

"Am I therefore to become your enemy, because I tell you the truth?" Gal., 4:16

Zionists obtain support from persons of the Jewish and non-Jewish faiths by the use of the untruth that persons of the Jewish faith are members of an ancient so-called "Jewish race" which has become a "dispersed people" in every part of the world. The foremost world's recognized authorities on (1) the histories of the nations of Europe, Asia and Africa and (2) the racial origins of the inhabitants of these continents contradict and disprove this Zionist untruth. These authorities agree that persons of the Jewish faith are the descendants of many widely-scattered native populations belonging to nearly every race known to science who became converted to Judaism between 1500 B.C. and 1000 A.D. and since. These authorities agree that shortly after Judaism was established as an organized religion in the accepted sense of the word, it spread from the Holy Land to the pagan peoples inhabiting the North African and European shores of the Mediterranean, to countries in Western Europe, Arabia, India, China and Ethiopia. These native populations were at first converted to Judaism by missionaries, traders, voyagers, settlers or by exiles who came from the Holy Land. They came in very small numbers and when they remained in these countries they were soon assimilated by the native populations. As a result of intermarriage with the native populations all traces of their former racial origins practically disappeared. In this way many large native populations of the Jewish faith of nearly every race known to science were developed in widely scattered parts of Europe, Asia and Africa. The racial origins of populations thus converted to Judaism as it spread were mostly non-Semitic. The world's Semitic population of the Jewish faith at that time was limited to the founders of Judaism and Arabs who had become converted to Judaism. The widely-scattered non-Semitic native populations of the Jewish faith include Falashas of Ethiopia (Black), Chinese in China (Mongolian), Tamils in India (Black), Moors in North Africa (Black), Berbers of North Africa (Aryan), Khazars of Eastern Europe (Turkish-Finnish), Negroes of United States (Black), Nubians of Africa (Negroid), Fulas of Senegambia (Negro), Gold Coast of Africa (Negro), Polish of Poland (Negro),

Europe, Asia and Africa who spoke the language of the country they lived. Yiddish was carried to the United States by the Yiddish speaking Jews who emigrated to the United States between 1890 and 1914 and totalled 3,500,000. This rapid influx of Jews into the United States created the impression in this country that the people of the Jewish faith were one and the same. This is an incorrect belief among many American people. There are 400,000 Yiddish newspapers in New York City and other large cities.

"Ye shall not steal, neither deal falsely," Since 1916 Zionists have proceeded on the basis of an independent Jewish state in Palestine. Zionists could acquire complete control of the Five Trillion Dollar (\$5,000,000,000,000) of the Dead Sea. A Jewish state possessing such financial power soon become a power of importance than any nation in the history of the world. Behind the feverish Zionist "give me land" now going on is their hope of resurrections of the European Jewish kingdom (Khazar). The Khazar massacre not for the purpose of accelerating the Jewish state, as "professional" Zionists plead for contributions, but for the purpose of the Five Trillion Dollar (\$5,000,000,000,000) Twenty years before the arrival on the scene of the murderers Zionists were then using "high-jacking" of the Five Trillion Dollar (\$5,000,000,000,000) mineral wealth of the Dead Sea.

The Arabs have offered a very sane approach to the solution of this situation. Arabs have *already* taken 500,000 who *escaped into Palestine*, a country the size of the State of Vermont, of only 10,000 square miles, while the rest of the world with 50,000,000 square miles only took in about the same number in the same time. Throughout the history of Europe persecuted and oppressed Jews have always found a refuge with security and opportunity in the Arab countries. The recent murder of 6,000,000 Jews in the Christian countries of Europe is surely neither the fault nor the responsibility of the distant Arabs. Official spokesman for Syria, Saudi Arabia, Egypt, Lebanon, Iraq, Yemen and Trans Jordan, Abdul-Rahman Azzam Pasha, Secretary General of the Arab League, stated on October 3, 1946 that *the Arab states were ready to help find homes for the Jewish refugees in an international conference on the Jewish refugee problem* separate from the Palestine negotiations. Zionists should sponsor that conference if their primary interest is the "rescue" of the victims of Hitler's massacres. But *that* might end "lush" jobs for "professional" Zionists.

"But the people of the land slew all of them that had conspired". 2 Ch., 33:25

Zionists are *producing bitter anti-American feeling* in that area of the world which contains seventy-five percent (75%) of the world's population. Many of the aspects of this feeling are dangerous and harmful to the security and to the future welfare of Americans. On account of Zionists the Americans cannot afford to lose now the continuing political cooperation in world affairs of this seventy-five percent (75%) of the world's population located in the Near East, Middle East and Far East, and the enormous available stimulus to our future national prosperity of the rapidly increasing standard of living in the world's last remaining "economic frontier." Zionists are destroying there the goodwill which it has taken the American people over one hundred years to build up. The future of the Christian church in this area is faced with the challenge created by Zionist activities and the support given to them by the western great Christian democracies. No words can paint a better picture than reprinting here excerpts from an article published in *Catholic World*.

libraries and educational institutions of higher learning. These authorities agree that persons of the Jewish faith in eastern Europe (Polish, Lithuanian, Galician, Ukrainian, Russian and Rumanian) are the descendants largely of a non-semitic Turkish-Finnish race which came into Europe from Asia about the 1st century A.D. by a land route north of the Caspian Sea. These people are known in history as Khazars. The Khazars had always been a pagan people. They settled in eastern Europe and there established the Khazar kingdom. By continuous and successful conquests for which the Khazars became famous in history, their kingdom increased in size until by the 8th century A.D. it occupied the greater portion of eastern Europe located west of the Urals and north of the Black Sea and extending far westwards into Europe. The Khazar nation was converted to Judaism at about the end of the 7th century A.D. The Khazar king in (ca.) 692 selected Judaism rather than either the Christian or Moslem religions which were striving to convert the Khazar king and the Khazar nation to Christianity or to Mohammedanism. After the conversion of the Khazars to Judaism only a Jewish king could occupy the Khazar throne. Conversion of the Khazars to Judaism was very successful. Judaism became the state religion. Synagogues and schools for teaching Judaism to the Khazars and peoples conquered by them were built throughout the kingdom. Rabbis to officiate in synagogues and teachers for the schools were imported from Spain. These non-Semitic Turkish-Finnish people from Asia, now converted to Judaism, and as the Khazar kingdom dominated eastern Europe. This great and powerful Jewish kingdom at the peak of its power was collecting tribute from no less than twenty-five conquered peoples. *Conquest was their vocation.*

"To give light to them that sit in darkness, and in the shadow". Luke, 1:79

This great and powerful Jewish kingdom flourished for almost five hundred years without a setback. Even the neighboring mighty Byzantine and Persian empires feared the Khazars and eagerly sought military alliances with them. Towards the end of the 10th century A.D., the Khazars were defeated in a war with and conquered by the Russians (Varangians) who came down upon them from out of the north. For the first time in their history this Jewish kingdom was defeated and the Khazars were conquered. This conquest of the Khazars was completed in the middle of the 13th century A.D. The Khazar population and former Khazar territory were thus incorporated into the expanded Russian state. The Khazar kingdom disappears at this time from the history of the world. The conquest of the Khazar kingdom by the Russians accounts for the presence in southern Russia of the large concentrated population of the Jewish faith. During the next few centuries large parts of this concentrated Jewish population were included in the newly formed Polish, Lithuanian, Galician, Rumanian and other states which through conquests were carved out of the former greater Russia. These new states were in their turn reconquered by Russia and these large concentrated Jewish populations were reunited again as Russians. From the 13th Century A.D. to the outbreak of World War II the eastern European area of southern Russia underwent very little ethnic change and continued to include the descendants of the former Khazar Jewish kingdom. Zionists misrepresent to the world that these eastern European persons of the Jewish faith (Polish, Lithuanian, Galician, Ukrainian, Russian and Rumanian) have a legitimate right to be "repatriated" to Palestine, connoting a return to the country of their origin, a country with which Khazars in all their history have had neither a historical nor racial association, the Holy Land being about one-thousand five-hundred miles from the Khazar kingdom.

"The lip of truth shall be established for ever". Proverbs, 12:19

Yiddish is the language developed by the people of the Jewish faith living in eastern Europe, late in the Middle Ages. Yiddish became the mother tongue of the descendants of the Khazars. To their mother tongue they added words by the corruption of German, Polish, Russian and words of the other languages spoken by their many conquerors and co-religionists speaking other languages and from other countries who came to do business with them or to settle there with them. Yiddish is a jargon of many languages and is not a language at all in itself. The first Khazar king who was converted to Judaism adopted the

Increasing "anti-Semitism" (anti-Judaism) throughout the world, and in the United States more particularly, is due largely to Zionist activities. Zionists believe that a sovereign Jewish state with its Jewish ambassadors, Jewish armed forces and a full Jewish complement of enforcement agencies will create prestige and power sufficient to exert its effective influence on behalf of citizens of the Jewish faith in all other countries where "anti-Semitism" (anti-Judaism) raises its head. Zionists must know that "anti-Semitism" (anti-Judaism) is feeding on the universal resentment to the news about Zionist activities reported in the daily newspapers throughout the world. Americans of the Jewish faith easily can judge for themselves whether Zionists have made any contribution to the eradication of "anti-Semitism" (anti-Judaism) in the United States. In the Arab states, in the Orient, in Africa and throughout the British Empire, containing more than seventy-five percent (75%) of the world's population, where "anti-Semitism" (anti-Judaism) was scarcely known, in the accepted sense of the word, it is today intense and due to Zionist activities. "Anti-Semitism" (anti-Judaism) has almost become the accepted policy of nations and governments. Zionists are performing an incalculable disservice to the ninety-two percent (92%) of the population of Americans of the Jewish faith (including millions of un-hyphenated Americans of Polish, Lithuanian, Galician, Ukrainian, Russian and Rumanian birth or origin) who feel no dual-allegiance or divided-loyalty to any country other than the United States. These Americans of the Jewish faith are in the preponderant majority but remain inarticulate. They wisely avoid the Zionist "economic means" to "silence persons" and the "character assassination" of which Mr. Arthur Hays Sulzberger spoke. In their hearts they feel as did Mr. Jacob H. Schiff, a great American humanitarian and banker, of the Jewish faith who, in his famous letter to Prof. Solomon Schechter of the Jewish Theological Seminary, said:

"Speaking as an American, I cannot for a moment concede that one can be at the same time a *true American* and an *honest adherent of the Zionist movement*. They who believe and hope and labor for an ultimate restoration of Jewish political life and the reestablishment of the Jewish nation place a prior lien upon their citizenship which if there would be a possibility for their desire and plans to become effective would prevent them from maintaining allegiance to the country of which they now claim to be good citizens . . . if those who come after us are to be freed from the *prejudice from which this generation is not unnaturally suffering*, we need feel that politically no one has any claim upon us but the country of which, of our own free will, we have become citizens, that even if we are *Jews in faith* there are no strings to our citizenship."

"With judgment and with justice from henceforth even for ever". Isaiah, 9:7

Zionists from eastern Europe (Khazar origin) had already infected Judaism in the United States with their toxic ideology twenty-five years before Hitler. Mr. Isidor Singer, an American authority on Judaism and a collaborator of Mr. Jacob H. Schiff, stated in a letter dated Sept. 4, 1907:

"reading the remarkable protest of the recognized leader of American Judaism (Mr. Jacob H. Schiff) against the grafting of the *retrograde and dreamy principles and hopes of Oriental Zionism upon the liberal minded and realistic Jewish commonwealth of the United States among whose nearly 2,000,000 members there can hardly be found 10,000 confessed Zionists - mostly Russian immigrants of the first decade, with a few pseudo Romantic Yankee Jews as official leaders*".

"Ye shall know the truth, and the truth shall make you free". John. 8:32

[REDACTED] Food and Drug Officer, Division of Litigation, Room 1211, New Post Office Building, Chicago, Illinois, advised that [REDACTED] has been under investigation by the Food and Drug Administration since January, 1942 for violation of the Food and Drug Act for misbranding of a drug article shipped interstate inasmuch as [REDACTED] claims that his product cures cancer and other diseases while the Food and Drug Administration maintains the product is nothing more than distilled water and useless in the treatment of diseases. [REDACTED] stated that over the past seven years he has accumulated considerable material concerning [REDACTED] and his supporters.

[REDACTED] furnished background information from his files concerning Dr. BESSIE L. REHWINKEL, M.D. and Dr. ALBERT WAHL, MD., C.M., co-authors of the book entitled, "Birth of a Science" edited by LAWRENCE REILLY, A.B., B.D., and D.D., founder of the Lutheran Research Society of Detroit, Michigan, which circulates the instant book dealing with the history and work of Dr. KOCH.

There are being enclosed herewith a copy of a letter dated August 16, 1949 written by [REDACTED] to Honorable ALEX CAMPBELL, Assistant Attorney General, Washington, D. [REDACTED] advised he has little background information concerning Dr. BESSIE L. REHWINKEL other than the fact that she is a graduate of Sioux City College of Medicine, class of 1902, which college went out of existence in 1909. [REDACTED] said he had no record of REHWINKEL using the [REDACTED] treatment but her present address is listed as 801 DeMund, St. Louis, Missouri.

[REDACTED] submitted a photostatic copy of the cover page and pages 48, 57, and 60 of the March, 1949 issue of "The Eleventh Hour", a publication of the Lutheran Research Society, which lists a book called "Communism and the Church" by Dr. ALFRED M. REHWINKEL, Professor of Church History and Christian Ethics, Concordia Theological Seminary, St. Louis, Missouri. [REDACTED] advised that he suspects [REDACTED] may be a relative of [REDACTED] but he has no basis to support this belief.

[REDACTED] submitted a report by [REDACTED] Food and Drug Inspector, New York Station, dated October 20, 1948 concerning Dr. ALBERT L. WAHL, co-author with BESSIE REHWINKEL of the book entitled "Birth of a Science". A photostatic copy of [REDACTED] report is enclosed. It should be noted that Dr. WAHL died July 1, 1948.

[REDACTED] also submitted the enclosed booklet entitled, "A Least Common Denominator in Antibiotics" written by Dr. WAHL, the introduction of which includes a short life history of Dr. WAHL.

RESEARCH MATTER

REILLY in his publication they felt the FBI might be interested in the information. This material was removed from Chicago file 105-0-1775A.

[REDACTED] stated that his offices in Detroit have complete information concerning the alleged attack upon [REDACTED] January 14, 1946 at her residence. [REDACTED] said that on January 14, 1946 [REDACTED] Food and Drug Inspector, Detroit, Michigan, called upon [REDACTED] and interviewed her concerning the results she had from [REDACTED]. In the course of this interview [REDACTED] who was apparently an enthusiastic supporter of [REDACTED] told [REDACTED] that [REDACTED] who lived nearby, had also taken [REDACTED] with a great degree of success and she advised [REDACTED] to contact [REDACTED]. However, [REDACTED] stated that [REDACTED] returned directly to his office and did not contact [REDACTED] that day or any other day but that same night [REDACTED] was allegedly attacked by an unknown man who represented himself to be an FBI Agent. [REDACTED] said that the FBI Office in Detroit conducted an investigation concerning the alleged attack. [REDACTED] further advised that [REDACTED] in a signed statement subsequently admitted that [REDACTED] was not the man who attacked her.

[REDACTED]

[REDACTED] said he is fairly certain that two FBI Agents from the Detroit Office interviewed [REDACTED] and a small boy in the neighborhood who is alleged to have seen the attacker.

[REDACTED] said that all material which he has submitted from his files and which is enclosed with this letter need not be returned to him.

The Detroit Office is requested to contact [REDACTED] Inspectors, Food and Drug Administration, Room 908, Post Office Building, for information concerning the Food and Drug Administration's investigation of the alleged attack [REDACTED]. In the event the Bureau has not already been advised, Detroit will notify the Bureau of the results of the investigation surrounding the alleged attack [REDACTED] on January 14, 1946 at her residence [REDACTED].

Reurlet 8-30-49 concerning captioned individual and enclosing a copy of a book entitled "The Birth of a Science," published by the Lutheran Research Society, Incorporated, 751 East Grand Boulevard, Detroit, Michigan. It has been determined that that book was edited by Dr. Lawrence Reilly, Director of the Lutheran Research Society, and its authors are Dr. Albert L. Stahl and Dr. Bessie L. Rehwinkel. In Chapter One of the book, entitled "Night Attack," a story is set forth concerning an assault allegedly made on one Lena Pearl Worley on January 14, 1946, by an individual who represented himself as a Special Agent of the FBI. Mrs. Worley has related that she was physically beaten to a semi-conscious condition and pulled from her house by that person when three dogs came to her rescue, one of which bit the man in the face. She also stated that the FBI conducted an investigation following the attack together with Chief Harvey White of the Hazel Park, Michigan, Police Department. The FBI is alleged to have been given evidence found at the scene of this attack, namely a button from the shirt of the attacker, which White was never able to get back from this Bureau to aid in his local investigation. It was also stated that intense pressure from hidden sources was placed on the FBI to force us to withdraw from this investigation. Chief White is alleged to have cooperated in the investigation and as a result was reduced from his position of Chief of Police to the rank of Captain in the police department.

No identifiable record of any investigation having been conducted by the FBI in connection with the alleged attack [redacted] can be located in our files at the seat of government, however, [redacted] Food and Drug Officer, Division of Litigation, Room 1211, New Post Office Building, Chicago, Illinois, advised that this matter occurred when he was stationed in Detroit and that he feels certain that investigation took place in connection with the attack supposedly by a representative of the FBI. He has also advised that the Food and Drug Administration [redacted] was investigating [redacted]

In your memorandum of September 18, 1949, it is indicated that Agents assigned to your office interviewed [redacted] on January 14, 1949, after information was received that an individual posing as an Agent of the FBI had contacted each of these women. Your memorandum reflects that [redacted] immediately pointed out that no misrepresentation was made that the person contacting her was an FBI man and that in fact she understood from the first that he was an investigator for the Pure Food and Drug Administration. You have failed to indicate that there was no misrepresentation of a Bureau Agent by the one who contacted and allegedly assaulted [redacted]. Your files should be immediately reviewed for this information and you should also determine whether or not any evidence in connection with an attack [redacted] was received from [redacted] the Hazel Park, Michigan, Police Department. The results of this review of your files should be immediately furnished to the Los Angeles Office by Air Mail Special Delivery. You should also specifically advise as to whether any investigation has been conducted with reference to [redacted]. I wish to be advised as soon as you have forwarded the above information to Los Angeles.

b7C

After taking the above action, two experienced Agents of your office should promptly interview [redacted]

[redacted] by one believed to be an Agent of the FBI and to the effect that evidence was given to the Bureau which was taken from the scene of the attack and later we refused to return it to the Hazel Park Police Department. At the time of these interviews it should be made very clear that no representative of this Bureau did in fact interview [redacted] on January 14, prior to her attack, and that any allegations that an Agent assaulted her are false and absolutely without foundation, and that any inferences to this effect are highly improper and should be immediately discontinued. Steps should be taken to point out that we are vitally concerned with any impersonation of this Bureau's Agents and accordingly [redacted] were interviewed when such was alleged following the reported attack [redacted]. If your files so indicate, it should be pointed out that the FBI has on no time refused to return evidence to [redacted] which would be of assistance in an investigation being conducted by his department. In view of the circumstances set forth [redacted] should be made clear [redacted] that any future distribution of publication is contrary to my wishes and any possible steps should be

Reference is made to the communication from captioned individual on August 21, 1949, a copy of which is attached for your information. The Detroit Office has been requested to immediately review its files to determine whether this Bureau has conducted an investigation of [REDACTED]

[REDACTED] and also to be sure that this Bureau has never refused to return evidence to the Hazel Park, Michigan, Police Department which would be of value in an investigation being conducted by that organization. Detroit has already advised that on January 14, 1948, two agents interviewed [REDACTED] as set forth in the attached copy of the memorandum to Detroit dated September 21, 1948. As soon as you have received word from Detroit stating definitely that the FBI has not

J. Edgar Hoover, Director
Federal Bureau of Investigation
Department of Justice
Washington, D. C.

Dear Mr. Hoover:

Although there has been some delay in getting this to you, we finally have been able to arrange the necessary changes in the future edition of "The Birth of A Science". You will recall that we have been having a discussion of the references to the F.B.I. which are found in the first chapter of the book. We have had some correspondence on this in the past.

I have done my best as a writer and investigator to ascertain the true facts which are described on pages 9 and 10 of "The Birth of A Science" and it seems that there is a great conflict of opinion. As I have said before, I do not want anything to reflect against your organization or the work that your men are doing. Since I am convinced that the mention of the F.B.I. in the account that was given in our first printing is not essential to the telling of the events which happened in this book, I am omitting all reference to it and am enclosing a typed copy which is to be inserted in place of the book as it now stands.

I would appreciate knowing if this is all satisfactory to you. This is the way the text will appear in the next edition. I have written our printer, instructing him to make the necessary changes.

Any time that we can be of service, please be sure to let us know. Once more I wish to tell you that we remember you and your men in prayer, since we realize the dangerous and burdensome work which you are undertaking in behalf of our country. May the Lord be with you.

"THE BIRTH OF A SCIENCE" - Large Edition - Page 9 Paragraph 2
Should read as follows:

About ten minutes later, almost as if it were timed with Ed's departure, a knock was heard on the door of the house. Before Tiny opened the door she turned on a brilliant porch light. The man at the door flashed a badge and said, "I've come to ask you a few questions about Dr. Koch, Mrs. Worley." etc.

Page 10 Paragraph 3 beginning:
The Federal Bureau of Investigation came upon the scene, etc.
Should be omitted entirely

In its place, the following paragraph will be inserted in order to compensate for the space on the photographic plate and avoid a complete revision of all the plates in order to take up the gap:

There were a series of investigations made and even Federal agencies were called in, but to no avail. The attacker had completely disappeared and no clue to his whereabouts appeared until a little while later. This is described further on. Chief White did his best to bring the assailant to justice. It was as though the earth had opened up and swallowed this evil man. Newspaper clippings of the event reported the situation in an erroneous fashion and rumors were circulated to the effect that Mrs. Worley had attempted to kill herself. It would be pretty hard for the most supple person to strike himself on the neck and back area of the body. Besides, Mrs. Worley had every reason to live now, since her health made living worthwhile after long years of illness. Today the mystery of the night attack is still not solved, but there are interested individuals who are working to shed some light on who the attacker was and by whom he was sent.

Dear Mr. Reilly:

Your letter dated May 10, 1950, with enclosure, has been received, and I wish to thank you for your action in taking steps to eliminate from future editions of your book "The Birth of A Science," references to the FBI which appeared in the earlier edition.

Since the book contained statements relating to the FBI which were totally erroneous, and since the FBI had no part in the activities related in the earlier edition, you can readily understand my interest in having the correction made.

You may be sure that I am grateful for the cooperative spirit which you have manifested in this matter.

A personal letter from Lawrence ~~Reilly~~ to all his friends everywhere

October 10, 1951

DEAR PATRIOTIC CHRISTIAN FRIEND:

This issue of The Eleventh Hour was delayed because of extensive traveling and speaking which I have been doing.

On September 24th we mimeographed a letter entitled "Satan on the Throne" and sent it to all our friends. We explained the need here at our headquarters to continue the fight against Communism and asked for contributions in this work. We have reason to believe that from 1/3 to 1/2 of the letters which we deposited in the Detroit Post Office were destroyed...in any event, they never reached a large section of our mailing lists. If you are one of the persons who did not receive a letter mimeographed on yellow paper with that date and title, would you drop me a card and say, "I did not receive the letter of September 24th" and sign your name and address? Send it to me personally at 751 East Grand Boulevard, Detroit 7, Michigan. If we find our suspicions to be true, we shall take action to prevent political radicals from interfering with the U.S. Mails.

THE ~~CRUSADE~~ FOR FREEDOM...is one of the phoniest outfits ever to be trotted out before the American public. We urge our friends NOT to sign the hypocritical anti-communist petitions nor contribute money to it. The October issue of The ~~Eleventh~~ Hour will carry an expose of this so-called "Crusade." It will give you the reasons. Watch for it!

THE ENEMIES OF AMERICA ARE TRYING TO KILL THE McCARRAN COMMITTEE..... You know of the work of this important Committee (the official title of which is Sub-Committee on Internal Security of the United States Senate) that has been doing such a magnificent job of accumulating data on subversive activities in our national life.

The Chairman, Pat McCarran, is a well-informed, courageous and patriotic American and his Committee has brought out so much "dirt" about the activities of the present administration that it has the full blown opposition of the left-wing element in Washington.

The Committee's appropriation expires shortly. They are asking for \$100,000 to continue their work for the next two years. A Senate Resolution, S.R. 198, has been introduced to provide the funds, but this is being held up in the Rules Committee. Attempts are being made

FTC Makes Decision on Koch Treatment

WASHINGTON, D. C., Sept. 2.—The Federal Trade Commission has had approximately a decade in which to decide a civil case involving a Federal Injunction against Dr. Koch.

After hearing testimony all over the country of cases which were proved beyond the shadow of a doubt, the FTC declared here today that the Koch Treatment has no therapeutical value.

About ten years ago medical opinion witnesses presumably from the American Medical Association appeared before Judge O'Brien in Detroit and secured a "temporary" injunction against Dr. Koch and the manufacturers of the Koch Treatment which prohibited them from making any claims about the treatment until the Federal Trade Commission could investigate the treatment and decide if it had any therapeutical value.

In 1948 the Food and Drug dismissed its case against Dr. Koch.

A strange twist in the article announcing the decision in the Detroit newspapers is that the FTC says the treatment has no value and then later it stated that Hitler was cured of cancer of the throat by this treatment. He lived several years after his alleged cure and then presumably died by his own hand. The two state-

A STRANGE STORY OF PERSECUTION

A few weeks ago the Editor of The Bulletin was in the state of Washington in connection with the work of The Lutheran Research Society. While there, he had an opportunity to observe a strange situation.

He met Mr. Constatinos Vlachos, a Greek inventor, who is the designer of an automobile known as the Phibian.

The Phibian is entirely different from any automobile known today. It has no wearing gear to shift. It is not necessary to use any gasoline or other expensive fuel. Anything which produces heat can be used. The Phibian has no valves to grind or brakes to whine. It has no engine needing oil, so there is not one place on which to soil your hands. There is not a rattle anywhere because it has no shackles, hence no wear. There is no differential filled with gears nor a clutch to slip and rasp your ears. There is no shock absorber to repair, no oil to jell nor water to freeze. It can turn around on the proverbial dime and the secret of its power is hydraulic.

The car has four-wheel drive and it is possible to hold the so-called motor in the palm of your hand. There is one of these midget motors attached to the hub of each wheel.

There is one fact that stands out in the history of this car that engineers say cannot possibly work—it does! According to science a bumble bee is unable to fly, but since the bee does

enough pressure for high speed, the rotor "floats" in the forced fluid, thus eliminating metal-to-metal wear. It also takes the limit off super speeds that might burn out orthodox bearings. With one of these motors at each wheel, Vlachos' car derived its power from fluid in the oil reservoir pressured by a small airplane motor

erant has changed to gas and has reached its expansion peak thrust, the gas is discharged beneath the cylinder where it reverts back to its original fluid state in a separate compartment where it was originally sealed in.

The Editor could not help thinking of Dr. Koch in the medical field and other men who have discovered tremendous advances in their fields but who have been persecuted because of it. One does not have to be a Philadelphia lawyer to see who would be the natural enemy of the Phibian. The oil and gasoline business is one of the most gigantic in the world. The Phibian would make it valueless as far as automobiles are concerned. The drug business is one of the largest in America. The Koch Treatment would do the same to it.

When Dr. Koch enjoyed his first successes, he was offered a cool million dollars for complete rights to its discovery. The million dollars was offered by his enemies. The Editor

was not entirely surprised to learn that Mr. Vlachos also was offered a million dollars by his enemies. Like Dr. Koch, he refused to sell, knowing that they were offering it in order to deny these discoveries to the world, in order to protect their own billion dollar businesses.

The Editor never mentioned Dr. Koch to Mr. Vlachos. The parallels, however, are striking. There have been attempts made by people to trick Dr. Koch into various situations regarding his Treatment. The same thing was done to Mr. Vlachos in regard to another of his inventions. He had a working model of a machine which would ride on the land, on the water or in the air. He was going to demonstrate it in Washington, D. C., but just before the demonstration his enemies substituted a pipe in the device and filled it with gasoline. The model exploded and caught afire. Mr. Vlachos almost lost his life. He spent several months in the hospital and his model was destroyed. There is a saying that states: "Genius is born." This is true of Mr. Vlachos.

For those who are interested in checking what is written here, the

chassis model of the Phibian may be seen at 4th Plain Road at Ogden Meadows, Vancouver, Washington. If you wish additional literature, write Mr. Constatinos Vlachos at Post Office Box 464, Vancouver, Washington. If you live nearby, his telephone number is: Vancouver 5-8171. His company is trying to finance further research and development of this revolutionary automobile. Naturally, this is being opposed in every conceivable way.

While this is somewhat out of our field, we thought it would be of interest to readers as another example of the type of persecution which is going on frequently in this so-called free country of ours.

The Editor and his party saw a small propeller, probably ten inches in length, attached to one of these tiny motors and run by compressed air. The thing roared like a super airplane and attained a speed of 600,000 revolutions per minute. Certainly this man has something and it is our prayer that the right people will come along and help him protect his inventions for the betterment of humanity.

EQUALITY: UN STYLE!

Delegates to the United Nations are always speaking of equality. Of course, when they speak of it, they mean in other ways than in financial responsibilities, and in military manpower.

Anti-Semitism and Christianity

"What . . . the liberal clergymen and so many Jews fail to see is that, so long as there is a ruling class that needs to use anti-Semitism to protect itself from being exposed as the basic enemy of the people, the churches, as more or less direct and conscious supporters of that ruling class, will be agencies of anti-Semitism. . . . Certainly the experience of the Soviet Union proves that anti-Semitism can be rooted out and abolished." From *Jewish Life*, July, 1951, pages 26-28, article by Morris U. Schappes.

Electronic Cancer Machine

For years doctors have sneered at the use of electronic machines to diagnose illnesses. Their sneers were ended very abruptly one day this spring at the 42nd annual meeting of the American Association for Cancer Research.

There, Dr. Robert C. Mellors of the Sloan-Kettering Institute for Cancer Research announced that he and his associates have perfected a machine which can identify cancer cells by electronic means. The machine was expected to be ready for use by doctors by August 1, 1951.

The apparatus works on the principle that cancer cells have a greater hunger than normal cells for certain dyes which glow when bombarded by ultra violet light. The light given off by both cancerous and healthy cells is scanned by the machine which examines 100,000 cells each minute. Every change in fluorescence given off by the cells stained by the dye is picked up by a microscope, converted into electrical impulses, and tabulated. The device is arranged so that only the cancerous cells, which give off a greater electrical output

Russian Diplomacy

"The United Nations World" Magazine has just issued a large \$20.00 volume entitled "The Diplomatic Yearbook" published by Funk & Wagnalls Company. (Available from The Eleventh Hour Bulletin.)

In this volume each of 70 nations lists its chief officials, national holidays, and its diplomatic list. When we turned to the article for information on the Union of Soviet Socialist Republics, we found:

- 1) Joe Stalin's name is not mentioned.
- 2) Molotov's name is not mentioned.
- 3) The only national holiday was November 7 . . . commemorating the Communist Revolution.
- 4) No addresses or telephone numbers were given of the officers as is given in the information on other Nations.
- 5) Full addresses of the diplomatic list "are not fully supplied by the Soviet Government," says the Yearbook.

We also noted that there are only 34 on the U. S. staff in Moscow, whereas the Soviet has 57 officials on U. S. territory either in Washington or Lake Success. There are no visitors in Russia from the U. S. except in special cases, whereas hundreds of Russian citizens wander all over the United States, enjoying free intercourse.

Eleanor Roosevelt writes on Page 45 of the Yearbook that the United Nations must come to agree as to how communism and democracy are to live in the world together. Some people say they are the same thing.

Rabies - Past - Present In Scientific Review

(The following article is presented as a public service. It contains valuable information on a controversial subject. The side presented here is the one which most of the public needs.

GEMS FROM THE TALMUD

According to *The Sentinel*, Chicago Jewish Weekly, July 26, 1951, page 15, the National Broadcasting Company is presenting ten radio programs entitled, "Words To Live By" sponsored by the Jewish Theological Seminary. The article states: "This marks the first attempt of a radio series to bring the meaning of the Talmud to a representative cross-section of the American listening public. Each of the ten half-hour programs features an address on an aspect of the Talmud by a prominent Rabbi." This shows with what high regard the Talmud is held by modern Jewry. We continue from the last issue with our gems:

Gem No. 7—"An Israelite woman should not suckle a child of a heathen, because she rears a child for idolatry; nor should a heathen woman (be allowed to) suckle a child of an Israelite woman, because she is liable to murder it." (Abodah Zarah, 16a, Page 130, Soncino Edition).

Gem No. 8—"A Jewish woman may act as midwife to a heathen woman for payment, but not gratuitously!" (Ibid)

Gem No. 9—"And he who desires that none of his vows made during the year shall be valid, let him stand at the beginning of the year and declare, 'Every vow which I may make in the future shall be null.' (His vows are then invalid.) Providing that he remembers this at the time of the vow." (Nedarim, 23b, Page 68, Soncino Edition.)

A new book containing 300 actual photostats from the official English translation of the Talmud is just off the press. Full size pages are presented. Those appearing in these columns may be examined in this book in full context for verification. Many are too obscene to be printed in a public paper. These are supposed to be "Words To Live By." Study these photostats brought together for the first time in history. They are all from The Babylonian Talmud. Send \$2.00 for each copy of the book containing the 300 photostats from the original, and ask for "The Plot Against Christianity." It will be sent at once.

How long will filthy lucre keep the facts from the fooled public?

In early times, as recorded in articles available in old libraries, the kiss of a king would cure rabies. It was later discovered that a piece of the king's garment would be as efficacious.

Still later the "mad stone" when applied over the area of the bite would "draw out the madness." Later some of the "hair of the dog" was used.

This latter seems to have kept rabies out of the limelight until the time of Pasteur. Medicine has heard much of the startling cure of Joseph Meister by Pasteur. Little mention is made of the fact that three relatives of the Meister boy were bitten by the same dog and without benefit of the Pasteur treatment recovered completely.

Dr. H. Bastian, a contemporary, took sharp issue with Pasteur's scien-

Church Disclaims Link to 'Lutheran Research Society'

By ELEANOR ROOSEVELT

ATLANTA, Ga., Thursday—The other day I received a piece of literature published by an organization that evidently had deliberately given itself a name that would lead people to believe it is a religious group.

This organization is called the Lutheran Research Society of Detroit. I had never heard of it before, so I wrote to the president of the Lutheran Church in America to make inquiries. Promptly I was told that the society "is not sponsored or officially connected with any of the Lutheran Church bodies in this country."

The record of Lawrence S. Reilly, who founded this society somewhere around 1945 or 1946, and who is its executive director, must make strange reading to many Lutheran Church members. He studied for the ministry but he is not a member of the ministerium of any of the Lutheran bodies in America. All ordained clergymen in the Lutheran Church hold such membership. Mr. Reilly says that his organization has grown a thousand per cent since its inception and that it was formed for the purpose of "identifying the enemies of religion, exposing the atheist-Communist plot to destroy America and the churches, and the alerting of pastors (and lay people . . . to this menace."

AS it is always more important to know what an organization

editors of Gerald L. K. Smith's "The Cross and The Flag," Kenneth Goff, another of Smith's lieutenants; Upton Close, who was dropped as a radio commentator; Tyler Kent, the American code clerk who was charged by the State Department and Scotland Yard with relaying military secrets to Germany; and Harvey Springer of Denver, Colo., who also co-operates with Gerald Smith. Some of the other people whom he supports are Gerald D. Winrod, of Wichita, Kan., a minister who is both anti-Catholic and anti-Semitic, and Walter Maier, a somewhat fanatic Fundamentalist who shortly before V-E Day was still insisting that the Germans were a bulwark against Communism! John Rankin stands high in Mr. Reilly's good graces as does Joseph Kamp and, naturally, Gerald L. K. Smith.

TO the casual observer, despite all his protestations and accusations, it would seem that Mr. Reilly was one of the dangers we now sometimes forget but which still exist in our midst. After all, we thought we had put a rather firm stamp of disapproval on men of his type when we won the war against Germany. We hardly can
